UBER HUBER ISSUE 134

QUALITY STOCKS & GLAZES

100% NATURAL INGREDIENTS

Dear ,

As you are reading this, we should have just received our second shipment of white asparagus from Germany. I cooked some last week with hollandaise sauce and it was delicious. If you have not tried making this at home, look at our link below to see how to prepare it.

We have now received the full range of stocks from Foundation Foods in NZ. We have decided to switch to this brand as the product is of much better quality and healthier too. We will be bringing in a range of glazes and red wine jus in future shipments so do look out for that.

The issue of safe distancing has been a subject of contention over the last week. We have received feedback from both sides of the fence. On one side we are strict and have denied entry when its more than one person and on the other side that we allow more than one person in, especially when customers come in separately but get together in the store. I seek your understanding that we are simply following the guidelines set out by the government and there have been spot checks at our store by MOM and MOH on several occasions. I ask for your kind understanding and cooperation.

Huber's Butchery has decided to partner with The Majulah Movement to provide meals and snacks to our healthcare staff and migrant workers. We will be sponsoring meat for this cause and have purchased meal and snack sets. As to how you can help? Please log onto www.majulahmovement.com to learn more about this movement and purchase a MajulahMovement Set Meal or Treat Pack that will go directly to our beneficiaries. Thank you for your kind generosity and please help to share this movement.

Excite your appetite!
